Pupils learn about growing from young to old and that they are growing and changing</p> <p>Pupils</p> <ul style="list-style-type: none"> • can identify key stages in the human life cycle • understand some ways they have changed since they were babies • understand that all living things including humans start life as babies 		<p>4. Pupils learn about the impact of puberty on physical hygiene and strategies for managing this</p> <p>Pupils</p> <ul style="list-style-type: none"> • can explain how changes at puberty affect body hygiene • can describe how to care for their bodies during puberty • can recognise the similarities between the needs and wants of boys and girls and challenge gender stereotypes around hygiene and grooming 		<p>4. Pupils learn about human reproduction in the context of the human lifecycle</p> <p>Pupils</p> <ul style="list-style-type: none"> • understand that sexuality is expressed in a variety of ways between consenting adults • know that sexual intercourse may be one part of a sexual relationship • can describe how babies are made and explain how sexual intercourse is related to conception • can name the male and female sex cells and reproductive organs
	<p>5. Pupils learn that everybody needs to be cared for and ways in which they care for others</p> <p>Pupils</p> <ul style="list-style-type: none"> • understand that we all have different needs and require different types of care • identify ways we show care towards each other • understand the links between needs, caring and changes throughout the life cycle 		<p>5. Pupils learn how puberty affects emotions and behaviour and strategies for dealing with the changes associated with puberty</p> <p>Pupils</p> <ul style="list-style-type: none"> • are able to describe how feelings and behaviour change during puberty • can devise strategies for managing these changes • understand how changes during puberty can affect relationships with other people 		<p>5. Pupils learn how a baby is made and grows (conception and pregnancy)</p> <p>Pupils</p> <ul style="list-style-type: none"> • know the male and female body parts associated with conception and pregnancy • can define conception and understand the importance of implantation in the womb • know what pregnancy is, where it occurs and how long it takes

	<p>6. Pupils learn about different types of family and how their home-life is special</p> <p>Pupils</p> <ul style="list-style-type: none"> • can describe different types of family • identify what is special and different about their home life • understand families care for each other in a variety of ways 		<p>6. Pupils learn strategies to deal with feelings in the context of relationships</p> <p>Pupils</p> <ul style="list-style-type: none"> • are able to identify feelings and understand how they affect behaviour • can practise strategies for managing relationships and changes during puberty • can empathise with other people's feelings in relationships, including parents and carers 		<p>6. Pupils learn about roles and responsibilities of carers and parents</p> <p>Pupils</p> <ul style="list-style-type: none"> • can identify some of skills and qualities needed to be parent and carer • understand the variety of ways in which parents and carers meet the needs to be a parent and carers meet the needs of babies and children • can recognise that both men and women can take on these roles and responsibilities
			<p>7. Pupils learn to answer each other's questions about puberty with confidence, to seek support and advice when they need it</p> <p>Pupils</p> <ul style="list-style-type: none"> • can identify sources of information, support and advice for children and young people • can use appropriate language to discuss puberty and growing up with confidence • can answer their own questions about puberty and growing up 		<p>7. Pupils learn to answer each other's questions about sex and relationships with confidence, where to find support and advice when they need it</p> <p>Pupils</p> <ul style="list-style-type: none"> • can answer their own questions about sex and relationships • can use appropriate language to discuss sex and relationships and growing up with confidence • can identify sources of information, support and advice for children and young people
					<p>Additional lessons: schools will want to consider including these lessons as part of their SRE policy development</p>
					<p>8. Pupils learn some myths and misconceptions about HIV, who it affects and how it can and cannot be transmitted</p> <p>Pupils</p> <ul style="list-style-type: none"> • know that HIV can affect anyone, not a specific group or type of person • can identify how HIV can and cannot be passed on

					<p>9. Pupils learn about how the risk of HIV can be reduced</p> <p>Pupils:</p> <ul style="list-style-type: none">• know that the risk of HIV being passed on can be reduced if a condom is used• can describe how a condom protects against HIV and other sexually transmitted infections
					<p>10. Pupils learn that contraception can be used to stop a baby from being conceived</p> <p>Pupils:</p> <ul style="list-style-type: none">• know that a condom stops sperm from meeting an egg and therefore stops fertilisation• know that women can take a pill to stop an egg being released, preventing conception• understand contraception is both partners' responsibility

National Curriculum link:	Science - animals, including humans (statutory requirements)
Pupils:	Pupils should be taught to:
Year 1	4.1 identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense
Year 2	4.2 notice that animals, including humans, have offspring which grow into adults
Year 5	4.3 describe the changes as humans develop to old age

This scheme of work suggests that sex and relationship education is taught in Years 2, 4 and 6.

Some schools will prefer to teach sex and relationship education in each year group or may want to teach a particular topic across consecutive year groups as identified on the grid above.

PSHE subject leaders can adapt this PSHE curriculum area of learning to best suit the school's individual approach.
